To: Villalobos, Brian C.

I kind of figured you wouldn't, but I knew the two Bradbury districts this affects would probably want to see what's going on before the ALPRs are in place.

Brian,

Just as an FYI – there might be a Bradbury Council member or two in attendance at this meeting.

Greg,

As far as I know we were only planning on the slab but let's do the site visit and see if we are able to do everything.

Brian,

One last question. Was the city still planning on performing all the installation tasks (building slab, running and connecting power, securing cube)?

Hi Brian,

Thank you for the reply. I have reached out to my team to check availability and will get back to you shortly.

To answer your question, a purchase order is what gets things moving on my side. This should be done after the site visit as we need to have all the details finalized.

Subject: RE: ALPR System

Hi Greg,

Thanks for being patient with us. We have been trying to figure out how to work out two cities paying for this.

We have worked out that the City of Duarte will pay for the system and the two SIM cards and work out an MOU with the City of Bradbury for 50% reimbursement.

I have included our Assistant City Manager (Kristen Petersen) who is charge of finance as we will need you to start the process with us (purchase order or invoice?) and ultimately invoice us but split the invoice in half two show the cost of one ALPR system and installation for each City.

We should schedule a walk through of the site so that we can determine the placement of the pads and next steps. I am on vacation next week but am available the week of August 6-9.
